

## Special Concepts

- Autonomic Balance Activation
- The Law of Initial Values
- Habituation and Rebound
- Orienting and Defensive Responses
- Stimulus-response (SR) Specificity
- Individual Response (IR) Specificity
- Cardiac-somatic Concept
- Concepts and Social Psychophysiology

---

---

---

---

## Principles and Laws

- Orderly vs. Chaotic universe
- Personal observations
- Assumptions

9/6/2001

---

---

---

---

---

---

---

## Autonomic Balance/activation

- Homeostasis
- Vagotonics
- Sympathicotronics
- Autonomic space

9/6/2001

---

---

---

---

---

---

### The Law of Initial Values (LIV)

- o Negative feedback
- o Ceiling effects

9/6/2001

---

---

---

---

---

---

---

### Habituation and Rebound

- o Reticular activating system (RAS)

9/6/2001

---

---

---

---

---

---

---

### Orienting and Defensive Responses

- o Defensive response
- o Orienting response

9/6/2001

---

---

---

---

---

---

---

### Stimulus-response (SR) Specificity

- o Directional fractionation
- o Individual response specificity

9/6/2001

---

---

---

---

---

---

---

### Cardiac-somatic Concept

- o Psychophysiology of hypertension
- o Blood pressure regulation
- o Coping-no coping models
- o Emotional involvement
- o Dynamic paradigms

9/6/2001

---

---

---

---

---

---

---

### Concepts in Social Psychophysiology

- o Regulation and application standards
- o Evolution of technology

9/6/2001

---

---

---

---

---
